DOCKETED BY

NR

IN THE MATTER OF THE APPLICATION OF
GOODMAN WATER COMPANY FOR AN
EXTENSION OF ITS CERTIFICATE OF
CONVENIENCE AND NECESSITY.

DOCKET NO. W-02500A-05-0443

PROCEDURAL ORDER

BY THE COMMISSION:

On February 2, 2006, in Decision No. 68444, the Arizona Corporation Commission ("Commission") approved the application for extension of the Certificate of Convenience and Necessity ("CCN" or "Certificate") of Goodman Water Company ("Goodman" or Company"). Two of the conditions of the extension the Commission imposed in Decision No. 68444 were that Goodman file a Main Extension Agreement ("MXA") and a copy of the developer's Certificate of Assured Water Supply ("CAWS") for the extension area within 365 days of the effective date of the Order, or February 2, 2007.

On January 30, 2007, Goodman filed a Motion for Extension of Time, requesting that the deadlines for filing the MXA and Certificate of Assured Water Supply be extended to February 2, 2008. Goodman's existing customers are located in Pima County. The extension area is located in Pinal County, contiguous to the northern boundary of Pima County. Goodman reports that Pima County provides wastewater treatment services to the existing customers of Goodman Water Company and is contractually committed to serve any future customers located within the existing CC&N boundary. According to the Company, until recently, the developer had believed that the Pima County Wastewater Management Agency ("PCWWMA") would also provide wastewater services to customers located within the extension area. Goodman states that the landowners and developer learned this winter that the PCWWMA would not agree to provide utility services in southern Pinal County. Goodman states that it has not been able to produce a MXA or CAWS for the

1 extension area because the developer's subdivision plat cannot be finalized until the wastewater issue
2 is resolved. Goodman further reports that the developer has engaged the engineering firm of
3 Westland Resources to design a wastewater treatment plant and to undertake a Central Arizona
4 Association of Governments 208 Plan amendment. Goodman believes the developer is making
5 progress and that the necessary approvals can be obtained within one year, thus, Goodman seeks a
6 year extension of the requirement to file the MXA and CAWS.

7 The Commission's Utilities Division Staff ("Staff") should file a response to the Company's
8 Motion, indicating Staff's recommendation to the Commission.

9 IT IS THEREFORE ORDERED that Staff shall file a response to Goodman Water
10 Company's Motion by February 27, 2007. Staff's filing shall include Staff's recommendation to the
11 Commission regarding the Company's request.

12 DATED this 12th day of February, 2007.

JANE L. RODDA
ADMINISTRATIVE LAW JUDGE
